1)Build a php code to store name of students in an array and display it using printer function sort and display the same using asort and arsort function?

Program

```php
<html>

<body>

<?php

$name = array(' jeena ', ' jubi ',' rubi', ' pinki', ' minnu');

echo "display Array(using print_r): ";

echo "<br>";

print_r($name);

echo "<br>";

asort($name);

echo "<br>";

echo "sorted Array(using asort): ";

echo "<br>";

foreach($name as $x => $x_value) {

 echo "Key=" . $x . ", Value=" . $x_value;

 echo "<br>";

}

arsort($name);

echo "<br>";

echo "sorted Array(using arsort): ";

echo "<br>";

foreach($name as $x => $x_value) {

 echo "Key=" . $x . ", Value=" . $x_value;

 echo "<br>";

}

?>

</body>
```

```html
</html>
```

output

display Array(using print_r):
Array ([0] => jeena [1] => jubi [2] => rubi [3] => pinki [4] => minnu)

sorted Array(using asort):
Key=0, Value= jeena
Key=1, Value= jubi
Key=4, Value= minnu
Key=3, Value= pinki
Key=2, Value= rubi

sorted Array(using arsort):
Key=2, Value= rubi
Key=3, Value= pinki
Key=4, Value= minnu
Key=1, Value= jubi
Key=0, Value= jeena
